

Please support our fundraiser in aid of UNICEF Ireland

Now more than ever, UNICEF Ireland needs to fundraise in the community to save vulnerable children supported by UNICEF programmes worldwide. We know that every single day 21,000 children under the age of five die from preventable causes such as drinking dirty water, not having shelter at night or not getting access to the most basic medical care. Every child has the right to survive, and UNICEF will continue their work until no child dies from a preventable cause. Please support us in raising urgent funds for UNICEF Ireland today. Thank You.
